Total cost of ownership - case studies presented in an understandable way

Rating: Not Rated Yet

[Ask a question about this product](#)

Brief description

Help for self-help in the evaluation of different display technologies for desired use

Key aspects

- Total cost of ownership
- Technology characteristics and evaluation
- systemic dependencies

[Overview technical focal points](#)

Product benefits

- Selection of the most favourable solution for a given problem
- Understanding of systemic dependencies

Form

File as PDF format for download

Scope / Volume

xx pages of understandably prepared explanations with medium annotated colour diagrams, sketches, charts, checklists, extracts from studies and publications and explanatory text with examples.

Preparation

finished file as download

Project duration /

scheduling

Download after
payment

Available Variants /

Execution

none

Additional

information

[ISO 9001 2015](#) | [terms](#)

Special features

none

Available

Language

German
English

File size

Download xxxx KB

Password security

yes - individual password for the file

Format / Resolution

approx. Din A4 300ppi

Licenses of use

simple right of use of services and results based on our existing and newly arising rights within the scope of such a project

Requirements

Bidirectional NDA
